

**China Energy & Environment Summit**

**中国能源环境高峰论坛**

## **The 11th China Energy and Environment Summit (CEES)**

# **Invitation Letter**

China Energy and Environment Summit (brief as CEES), jointly sponsored by National Development and Reform Commission (NDRC), National Energy Administration (NEA), Ministry of Environmental Protection (MEP), Ministry of Science and Technology (MOST), United States Department of Energy, University of International Business and Economics, Center for International Economic Exchanges, NDRC, China Center for Urban Development, NDRC, State Information Center, Xiamen University, Economic Daily and National Energy Conservation Center, has been successfully held for 10 consecutive sessions plus one web conference. In 2009, the Summit has been approved by the State Council as the Sub-Forum (the Largest one) of the Global Think-Tank Summit. (Achievements for ten years can be seen from Attachment in the end).

In order to reflect the spirit of the 19th CPC national congress and promote the reform of green development, the 11th CEES (2018) will be jointly hosted by Energy and Environment Research Center, China Economic Trends Research Institute of Economic Daily, China Economic Information Network of State Information Center, Institute of Urban and Environment Studies Chinese Academy of Social Sciences, etc. in Beijing, on November 26<sup>th</sup> and December 15<sup>th</sup> - 16<sup>th</sup> in 2018. Topics and issues will include Green Development and Reform – investment and financing in green technologies and industries (energy conservation and environmental protection, biomass energy/garbage incineration power generation, oil and gas, new energy vehicles, and new energies, etc.), conservation in energy industry, application of hydrogen energy, environmental rights transaction, and green development of civilian nuclear technology. The Summit will invite leaders and experts from NDRC, NEA, MEP, MOST, MOC, Chinese Academy of Engineering, Chinese Academy of Sciences, the Board of Supervisors of State-owned Enterprises of the state council, NNSA (National Nuclear Safety

Administration) and UNDP, to deliver speeches, have dialogue and exchanges or hold group discussions.

Hundreds of mainstream media including People's Daily, Economic Daily, Xinhua News Agency will cover the achievements of the forum. Also, the blue books will be published as reference for the Central Committee of Communist Party of China (CCCPC), the State Council, ministries and commissions under the State Council. It will establish high-end platform for the development in relevant industries and sectors at home and abroad, and it will also be conducive to the communication between the city and urban townships. Meanwhile it will promote the joint of green development and green technology, capital and industry. We will expand industrial, regional and international cooperation so as to make contributions to global ecological security. We will achieve this by promoting green energy revolution, improving the governance of the polluted air, water, land, and by building the Beautiful China via making the sky clearer, grass greener, water cleaner, houses more livable and environment nicer. The event will be co-hosted by Consulting Center of CEES in Beijing and other joint organizations which will host the sub-forum.

We are looking forward to having all levels of local and international organizations, experts, investors, entrepreneurs, people from the media to be present in this summit.

Sciences*

**November 19th, 2018 Beijing, China**

**Attachment:** Over the past decade, China Energy and Environment Summit has been applauded by many world-famous green energy development supporters and world-class experts including leaders and officials from the State Council of China, leaders of departments in charge of national energy, environment and technology, the former president of India, Nobel laureates, the Fortune Global 500, counsellors, academicians of the Chinese Academy of Science and Chinese Academy of Engineering, Two bombs and one Satellite Award Winners. The summit has helped launch the “Bai-Qian-Wan-Wan” activities and the new “Bai-Qian-Wan-Wan” activities with all ministries and commissions in charge of national energy and environment. Our efforts have contributed to innovative achievement of green development which is beneficial to the whole planet. The summit saw brilliant remarks, typical cases and systematic theories of green development and a series of Blue Books including *Theory of Green Development for ASH Haze Dissipation*, *Reform of Green Development*, *Global Dream of Green Development*. People’s Daily has published book review. Central Compilation and Translation Bureau have translated those books into eight languages to spread the idea of green development. The fruits of the summit have been attached great importance and well implemented by Party Central Committee, central government, relevant ministries, governments at all levels, organizations in China and the world as well as people from all walks of life. The summit has accelerated the development of hundreds of world-leading green technologies and created a platform for green development. Thousands of major medias and tens of thousands of other medias and institutions have reported the fruits of the summit to spread the idea policies and technology of green development. They spread the idea to more than five thousand WeChat accounts, weibo and Youku, and to millions of group chatters, which successfully realized the target of benefiting people as well as fulfilling the goal of creating a national think tank. Central government’s website has reported the information of the tenth summit. June 9<sup>th</sup> marks the meeting to discuss the idea of green development and the future of it. That day also marks the publication of Blue Books, *Reform of Green Development*. The Economic Daily, Xinhuanet, the Organization Department of the Central Committee of the CPC have made their great efforts to spread the ideas raised in the summit and to their implementation.

**China Energy & Environment Summit**

**中国能源环境高峰论坛**

## **The 11th (2018) China Energy & Environment Summit (CEES)**

### **Agenda ( Round 2 )**

#### **I. Time and Venue**

December 15-16<sup>th</sup>, International Conference Hall, the Third floor of Chengxin Building of University of International Business and Economics;

26<sup>th</sup> November, at the Lecture Hall, the Sixteenth floor of GuiDu Hotel, Beijing, (finished)

Accommodation: Beijing Huiqiao Hotel, the International Plaza of the University of International Business and Economics

#### **II. Theme**

Green development and reform—green technologies and industries (energy conservation and environmental protection, biomass energy/garbage incineration power generation, oil & gas, new energy vehicles, new energies, etc.) investment and financing, conservation in energy industries, development of energy-saving and environmentally-friendly industries, use of hydrogen energy, environmental rights transaction, green development of civil nuclear technology, etc.

#### **III. Organizations**

##### **Sponsors:**

Energy and Environment Research Center, China Economic Trends Research Institute of Economic Daily, China Economic Information Network of State Information Center, Institute of Urban and Environment Studies Chinese Academy of Social Sciences

**Co-sponsor:** Dehetai Group

##### **Supporting Organizations:**

University of International Business and Economics (UIBE) and its Institute of International Economy, National Energy Conservation Center, China Beijing Environment Exchange, People's Government of Zibo city, Shandong province.

##### **Cooperators:**

Jinluda Co., LTD, Zibo Xiaolan Hydrogen Energy Science and Technology Co., LTD,

Harbin Modern Ash Blowing Technique Co., Ltd., Top 500 Energy Project Group of Tsinghua Science Park

**Cooperators:**

Nuclear Energy Branch of China Electric Power Promotion Council, China Institute of Nuclear Information and Economics, Nuclear and Radiation Safety Center of MEP, etc.

**Media:**

Over 60 mainstream media including People’s Daily, Economic Daily, CCTV, Guangming Daily, China Energy News, China Environmental News, China Science and Technology News, China Electric Power News, China Petroleum Daily, China Industry News, Xinhuanet.com, People.com, China Economic Net, Guang Ming online, China Power.com, etc.

**Organizer:**

Consulting (Beijing) Center of CEES etc.

**IV. Draft Agenda**

<b>The 11th China Energy &amp; Environment Summit (Round 2)</b>	
<b>Time &amp; Venue:</b>	
26 <sup>th</sup> November, at the Lecture Hall, the Sixteenth floor of GuiDu Hotel, Beijing, (finished)	
15 <sup>th</sup> ~16 <sup>th</sup> December, International Lecture Hall, the Third floor of ChengXin building, UIBE	
14 <sup>th</sup> December 9:00-21:00	<b>Registration</b>
<b>Opening Ceremony</b>	
<b>Time:</b> 8:00-12:00 a.m., 15 <sup>th</sup> December	
<b>Venue:</b> International Lecture Hall, the Third floor of ChengXin building, UIBE	
<b>8:00-8:55 a.m.</b>	<ol style="list-style-type: none"> <li>1. Registration in the International Lecture Hall</li> <li>2. Group photo in the VIP Room of the International Lecture Hall <b>(8:30-8:55 a.m.)</b></li> </ol>
<b>9:00-10:50 a.m.</b> <b>Moderator :</b> <b>A</b> <b>leader of</b> <b>steering</b>	<b>Opening Speech</b>
	<ol style="list-style-type: none"> <li>1. <b>Welcome speech to be delivered by the leaders of the joint organizers:</b> JIANG Qingzhe, <i>Secretary-General of the Party Committee of UIBE; Vice-Standing President of China Petroleum Enterprises Association</i> SUN Shifang, <i>Internal Reference Editorial Director of Economic</i></li> </ol>

<p><b>committee of CEES New “Bai-Qian-Wan-Wan” Activity</b></p>	<p><i>Daily; Dean of China Economic Trends Research Institute</i>  <i>LI Kai, President of Zhongjing Network Company; Vice-President of China Information Association; Former Deputy-director of State Information Center</i>  <i>PAN Jiahua, Director of City Development and Environment Institute of Chinese Academy of Social Sciences (CASS)</i></p> <p><b>2. Speeches will be delivered by the leaders.</b>  <i>WAN Gang, Vice Chairman of the Chinese People’s Political Consultative Conference (CPPCC), President of Science and Technology, Former Minister of Science and Technology Department</i>  <i>LI Zhi, Regulatory Director of National Energy Administration (High-quality Development Strategy and Policy of China’s Energy)</i></p> <p><b>3. Report:</b></p> <p><b>1) Energy Conservation Strategy and Policy in China’s Energy Industry</b>  <i>WANG Siqiang, Director of Energy Conservation and Science and Technology Equipment Department of National Energy Administration</i></p> <p><b>2) The Latest Strategy and Policy in Energy Conservation and Comprehensive Utilization of Resources</b>  <i>YANG Tiesheng, Deputy-Director of Energy Conservation and Comprehensive Utilization Department, Industrialization and Information Technology Ministry</i></p> <p><b>3) A Brief Introduction to Green Development Reform blue book</b>  <i>LIN Zhiqin, Vice Chairman &amp; Secretary-general of CEES; Director of China Energy and Environment Research Center; Prof. of University of International Business and Economics (UIBE)</i></p>
<p><b>Tea Break</b></p>	<p><b>10:50-11:00 a.m.</b></p>
<p><b>Press Conference of the Industry of the Disruptive Energy Saving Technology of the Motor System &amp; Launching Ceremony of the United Nations Hydrogen Energy Technology Industrial Demonstration Park</b></p>	
<p><b>11:00—12:00</b></p>	<p><b>Part I: Press Conference of the Industry of the Disruptive Energy Saving Technology of the Motor System</b></p> <p><b>1. Announcement of the Industrialization of the Disruptive Energy</b></p>

<p><b>Moderato :</b></p>	<p><b>Saving Technology of the Motor System of Jinluda Co., Ltd in Boshan District</b></p> <p><b>11:00-11:08</b></p> <p><i>XU Ke, Committee Member and Executive Deputy District Mayor of Boshan District, Zibo City, Shandong Province</i></p> <p><b>2. Introduction of the Technology of Brushless Wound-Rotor Doubly-Fed Electric Machine</b></p> <p><b>11:08-11: 20</b></p> <p><i>WANG Xuefan, Doctoral Advisor and Professor at Huazhong University of Science and Technology and Principle Scientist at Jinluda Co., Ltd</i></p> <p><b>Part II: Launching Ceremony of the United Nations Hydrogen Energy Technology Industrial Demonstration Park</b></p> <p><b>1. Announcement of the Launch of the United Nations Hydrogen Energy Technology Industrial Demonstration Park in Boshan District</b></p> <p><b>11:20-11:28</b></p> <p><i>Tina, Special Advisor to Country Director of the United Nations Development Programme (UNDP)</i></p> <p><b>2. Introduction of the United Nations Hydrogen Energy Technology Industrial Demonstration Park in Boshan District</b></p> <p><b>11:28-11:40</b></p> <p><i>LU Xuhao, Executive Vice President at Xiaolan Hydrogen Energy Technology Co., LTD in Zibo City</i></p> <p><b>Part III: Q&amp;A session 11:40 – 11:55</b></p> <p><b>Part IV: Ribbon Cutting Ceremony 11:55 – 12:00</b></p> <p><b>Participants of Press Conference, Launching Ceremony and Ribbon Cutting Ceremony:</b> LIU Jun, Chief of Division I of UN Programs of China International Center For Economic and Technical Exchanges; SUN Xiaoliang, Executive Deputy Director and Secretary-General of ESCO Committee of China Energy Conservation Association; ZHANG Ke, Chairman at Dehetai Group; WANG Xuefan, Doctoral Advisor and Professor at Huazhong University of Science and Technology and Principle Scientist at Jinluda Co., Ltd; CHEN Zhouqi, Vice Chairman at Xiaolan Hydrogen Energy Technology Co., LTD in Zibo City; LU Xuhao, Executive Vice President at Xiaolan Hydrogen Energy Technology Co., LTD in Zibo City; MEI Dewen, President at Beijing Environment Exchange and His Assistant ZHANG Zhenlong; Other Important Business Partners i.e.</p>
<p><b>Interviews with Editors and Journalists from Think Tank Column of Economic Daily and</b></p>	

<b>Journalists from Mainstream Media and Some Professional Media</b>	
12:00-13:20	<b>Lunch:</b> Xin Yuan VIP Hall and VIP Private Rooms at University of International Business and Economics
<b>Green Technology &amp; Industries Investment and Financing</b>	
<b>Time:</b> 13:30-17:00 , December 15 <sup>th</sup> <b>Moderator:</b> A leader of steering committee of CEES New “Bai-Qian-Wan-Wan” Activity	<p><b>1. Analysis of Oil and Gas Development at home and abroad</b>  <i>ZHANG Yuqing, Formal Party Member and Deputy Director of National Energy Administration</i></p> <p><b>2. High-quality Development Calls for Green Development and Energy Transformation</b>  <i>DU Xiangwan, Academician, Former Vice President of Chinese Academy of Engineering, Deputy Director of Advisory Committee of National Energy</i></p> <p><b>3. Implement the “Double-control” Indicator and Promote the "100-1,000-10,000" Energy Conservation Program</b>  <i>XU Qiang, Director of National Energy Conservation Center</i></p> <p><b>4. New Strategy for Pollution Control and Policy Measures for Incineration Waste Power Generation</b>  <i>LI Jingming, Chief Expert of Rural Energy &amp; Environment Agency and Ministry of Agriculture and Rural Affairs, Secretary General of Agricultural Resources and Environment Standardization Technical Committees, Vice President of China Biogas Society</i></p> <p><b>5. The Future of Petroleum and Gas at home and abroad: Technological and Industrial Investment</b>  <i>SUN Xiansheng, Secretary General of International Energy Foundation (an ministerial-level intergovernmental international energy organization)</i></p> <p><b>6. History of the Development of Soot Blower Technology and Its Application on the Waste Incinerator</b>  <i>LIU Xiangdong, General Manager of Harbin Modern Soot Blowing Company</i></p> <p><b>7. Speech by Entrepreneurs, Green Technology Holders and Investors: Energy Conservation, Environmental Protection, Biomass, Petroleum and Gas, etc.</b></p>
<b>Green Technology &amp; Industries Investment and Financing</b>	
	<b>1. Economic Energy Ecosystem and Clean Energy Revolution in</b>

<p><b>Time:</b> 09:00-12:00 , December 16<sup>th</sup></p> <p><b>Moderator:</b> A leader of steering committee of CEES New “Bai-Qian- Wan-Wan” Activity</p>	<p><b>Transportation</b> <i>WANG Zhongying, Vice Director of Energy Research Institute of National Development and Reform Commission (Presiding)</i></p> <p><b>2. Strengthen the Research and Promotion of the Green Technology, Push forward the Industrial Transformation</b> <i>ZHANG Jing 'an, President of China High-Tech Industrial Development Zone Association, Formal Deputy of Ministry of Science and Technology</i></p> <p><b>3. Take Industrial Structural Adjustment and Green Technology as a Breakthrough, Address the Symptoms and Root Cause of Pollution</b> <i>CHAI Fahe, Deputy Director of the National Air Pollution Prevention and Control Association, Chief Scientist and Formal Dean of China Academy of Environmental Sciences, Ministry of Ecology and Environment</i></p> <p><b>4. Market Information Analysis of New Energy Vehicle</b> <i>CUI Dongshu, Secretary General of China Passenger Car Association and China Automobile Dealers Association</i></p>
	<p><b>5. Speech by Entrepreneurs, Green Technology Holders and Investors: New Energy Vehicle, New Energy, Pollution Control in Air, Water and Land, Clean Use of Fossil Energy and Other Green Technology and Industries</b></p> <p>SAIC Motor: Passenger Car Ningde Project; China Three Gorges Corporation: Natural Resources and Ecological Environment Protection in the Yangtze River Basin; China Xiong'an Group: Green and Sustainable Development Strategy in Xiong'an Area.</p>

## V Participants

1. People who are working on central or local governments' departments of green development, energy and resources, environment, science and technology, and educational institutions.
2. Experts, academicians and people who are working in central and local large and medium-sized enterprises, institutions of higher learning and research institutions.
3. Experts (green technology patent holders), investors, industrialists and media, both at home and abroad, who are interested in the developments in industries including energy efficient technology, utilization of hydrogen energy, environmental trade, investment and financing in green technology industries

(efficient and green technology, biomass energy, waste-to-power, petroleum and gas, new energy automobile, new energy, clean utilization of fossil energy, treatment of air, soil and water pollution), green development of civilian nuclear technology (nuclear radiation, accelerator, nuclear medicine, nuclear heating).

4. Representatives from government, enterprises, industrial associations recommended by partners.
5. Representatives from foreign institutions, international organizations and multi-national energy, resources, environmental protection and tech companies.
